

## Sample SOP for Spouse Visa Canada

I'm Midhun Manuel, the spouse of Milu Scaria, who has got admission for the doctorate studies on (course name) at XYZ College in Canada. The course starts in September 2023, and Milu is eager to be a part of the college. As her spouse, I trust that it's my obligation to support her scholastic undertakings in Canada and give her the fundamental monetary and emotional support she really wants. Despite the fact that my wife is a strong and independent woman, the fact that she has no family members or companions in Canada truly frightens me. I don't wish to forsake my wife in a far-off country, as I'm worried about her wellbeing and security. I subsequently reached the resolution that, hopefully, I will go with her to Canada. Considering this, I'm requesting that you evaluate my application and supporting documentation for a spouse visa to Canada.

Before I start, I want to introduce myself. I'm Midhun Manuel, an MBA graduate presently working as the business development supervisor at XYZ Organization in ABC. I began my vocation as a business associate and endeavoured to get to the place that I'm in at this point. As part of my responsibilities, I got the chance to visit different countries like the US, Ireland, and Australia. I truly love my work and the way in which it fulfils me. Since I'm planning to go with my wife, I'm applying for a long leave. I have the aim of re-joining XYZ Organization when Milu completes her course in Canada.

Milu and I met in the year while we were in the twelfth grade. She was the class delegate and student body leader of the school during that time. I first saw her during a sports competition in which I was partaking. I got injured in the competition, and Milu was the person who took me to the clinic. Since that day, we have been friends. After a year, I expressed my feelings towards her and gave her the time she needed to decide and startlingly, she said yes. Furthermore, that was one of the best moments of my life. We have been dating for quite a while and have had the opportunity to get to know one another better. In the year \_\_\_\_\_, we chose to get married and informed both of our families of our interest in getting married. Thus, on (date/year/month) at ABC, we took each other's hands with our families' endowments and backing. We didn't get sufficient opportunity to spend time together as I left for Delhi for work. However, we have constructed our relationship based on trust and love, which has assisted us in enduring everything.

Despite the fact that we were remaining separated, we figured out how to stay in contact by meeting on weekends and other occasions. As people, we are both independent and unobtrusive. Milu, my better half, helps me and splits the family obligations between us. She assists with reducing my pressure and strain. Milu is extremely clever and sure about what she does. She was the top student in the college during her undergraduate and postgraduate studies. Her obligation to scholarly and professional undertakings generally astounded me and encouraged me to work hard. After her postgraduate studies, she was working as an associate designer at XYZ Organization. Milu has expressed her interest in further studies, and this will permit her to improve her abilities and knowledge, consequently opening up new doors. Understanding this, I supported her choice to seek a doctorate in (course name) from XYZ College in Canada.

In the wake of being separated, I understood the effect she had on my life. Our time apart was truly hard and trying

for us. The two of us were longing for each other's presence the entire time. We have become more close to each other, which makes it much more challenging to let her be. In any case, I'm glad that she understands what she wants to do and is making a way for herself. I wish to be there for her while she builds her career. Also, I have experience staying in foreign nations, and I could support my better half during her visit to Canada.

I have savings funds of \$xxxx CAD, which will give the two of us the monetary stability we want in Canada. I have attached the documents for your reference, and they will act as evidence for your assessment. Despite the fact that I provided copies of necessary documents, I'm willing to provide my original documents when they are required. You can reach me at xxx-xxxx-xxx or xxxx@email.com.

At the point when Milu completes her studies in Canada, we intend to return to India, where I can re-join the XYZ Organization and she can fill in as a specialist. I truly trust that we had the option to pass our conditions on to you and consciously request that you provide a spouse visa so I can accompany my better half. We promised to help each other in difficult times, and with your assistance, we can fulfil that promise.
